Adoption, Maintenance, Support, and Governance.

OUR MISSION *is to improve the way people work, and by extension, their lives.*

PROJECT AND PORTFOLIO MANAGEMENT

T4PM
TEAMS FOR PROJECT MANAGEMENT

Transform Project Management
Transparency - Awareness - Performance

Transform Your Work & Project Management

Simplified Experience
Simplify user experience by making the entire work and project management experience start and end within Microsoft Teams.

Work the Way You Want
Allow users to execute and work within the tools that they are comfortable in, while still contributing to the entire portfolio.

Manage Across Project
Save time and effort by managing risks, issues, lessons learned and project data at the program and portfolio level

Easily Extendible
Expand the app as your organization's needs grow by expanding the tables, apps and data with Low Code Microsoft PowerApps.

Data Management
All data is managed in the Dataverse, making it accessible to other apps, integrations and common reporting

Standardization & Governance
Ensure the same experience for all projects throughout the organization, while gaining visibility into all work and project management.

Increase PMO Value

Eliminate costly infrastructure and maintenance investments with a secure cloud-based data engine & reporting solution.

Maximize Adoption

Seamless integration within the Project Online interface minimizes the learning curve for users.
